

EDP

Upgrade Training

The upgrade training is made for users who are only interested in the latest program features. In addition, this course offers many useful tips and tricks.

I am pleased to offer all programs from the '97 versions onward as upgrade training.

For whom is this course useful?

Users with sound skills of the program, but only interested in the modifications of the latest versions.

Your benefit

You quickly and purposefully become acquainted with the latest program features as well as tips and tricks of the current Microsoft versions.
